METHOD AND SYSTEM FOR STORING A FLATTENED STRUCTURED DATA DOCUMENT

5

Abstract of the Disclosure

A method of storing a flattened structured data document, includes the steps of receiving the flattened structured data document. The flattened structured data document has a number of lines, each of the lines has a tag, a data entry and a format character. The tag is stored in a dictionary store. The data entry is stored in a dictionary store. The format character, a tag dictionary offset and a data dictionary offset are stored in a map store.
